59 MONTH CD SPECIAL

Member
FDIC

The daily balance method calculates interest by applying a daily periodic rate to the principal in your account each day. The APY assumes interest on deposit until maturity. An early withdrawal penalty may be imposed on the amount withdrawn before maturity and may invade the principal. A withdrawal will reduce earnings. 59 Month CD Special is compounded and credited quarterly and at maturity. No additional deposits allowed. Minimum deposit and minimum balance of \$2,500 to receive the current interest rate. Rate effective as of March 28, 2022.
